## **Functional Fluency and TIFF® – free webinar**

**Tuesday 10 September 2019 at 13:00 (UK time)**

Valerie Fawcett, experienced coach and TIFF Providers is running this free webinar to introduce the Functional Fluency model and associated TIFF, behavioural profiling tool. The webinar is designed for coaches, trainers and HR professionals, and would also be of interest to those working with all kinds of social groups. It will also give information about the next UK licensing course for becoming a Provider of TIFF profiling.

Join the Zoom meeting at <https://lnkd.in/dk-iQsu> just before 1 p.m. to take part. The session will be recorded. The webinar will be sufficient to enable you to begin using the model in training and coaching straight away, even if you are not interested in the personal profiling tool. If you cannot make the date for the webinar, a recording will be available.

Valerie says “I have found TIFF excellent in coaching and training managers and leaders in developing management style and effective relationships with staff and colleagues. Find more information and testimonials on my website <https://lnkd.in/dcrbdGQ> “
